Teacher's notes

- Language focus:** Speed reading and whole book revision
Time (approx.): 15 minutes
Preparation: Photocopy one worksheet for every student.

- Using the worksheet:**
- This is an unusual activity but lots of fun.
 - Students are presented with a questionnaire and the first one to finish with all the correct answers is the winner. They will need to quickly look through their books to find the answers. Page numbers are provided to help them find the answers.
 - The activity is basically a speed-reading activity. Students may find some of the questions a bit difficult but they should be able to understand what they have to do from the context of the activity.
 - Tell students that if they don't know an answer they should jump to another one.
 - If you prefer, get the students to work in pairs

Answers:

1. New neighbours
2. Dolphin
3. Sid
4. 20
5. Animals/farm animals
6. Molly
7. The Island
8. Alex
9. Australia
10. Blue
11. 4
12. Birds
13. Blue
14. West Hill
15. Mary Bowen, Printha Ellis

- Additional ideas:**
- Get the students to make their own questionnaires. On the board write a few key structures to help them such as, *On what page can you find _____?* , *What colour is _____?* , *What is the title of unit _____?*
